

In Year 10, Benowa SHS staff work with students and their parents/carers to develop a Senior Education and Training (SET) Plan.

Developing a SET Plan will help you:

- think about your education, training and career goals after Year 12
- structure your learning in Years 11 and 12 around your abilities, interests and ambitions
- decide which learning options you should choose to achieve your learning, further education and training, and career goals.

The [myQCE guide to planning your QCE pathway](#) will help you understand the QCE requirements, explore learning options and careers and think about your own QCE pathway.

You'll also find [lots of resources](#) on the QCAA website to help you plan your senior pathway.

Think about your future

- Make connections between where you are now and where you want to go.
- Think about your likes, interests, experience and achievements so far.
- Consider your personal strengths and areas to work on.
- Think about the different educational and vocational education and training choices available.
- Consider the subjects you're good at and enjoy.

Explore your options

- Research jobs that interest you, including educational requirements, salary, working conditions, future outlook, and anything else that can help narrow your focus.
- Compare your skills and interests with the jobs you have selected.
- Find out what school subjects (and results) are needed for the jobs that interest you.
- Look at the different costs associated with further education and training options.

Check what you need for your QCE

Make sure your pathway meets the requirements to achieve a [QCE](#). To receive a QCE, you must achieve the set amount of learning, at the set standard, in a set pattern, while meeting literacy and numeracy requirements.

Check what you need for tertiary entrance

To get into many tertiary entrance courses, you'll need an [ATAR](#). To be eligible, you must:

- satisfactorily complete an English subject
- complete 5 General subjects, or 4 General subjects + 1 Applied subject or VET course at Certificate III or above.

Some universities also require prerequisites. Make sure you find out what these are.
